

# LOS ANGELES MINIATURISTS

“the L.A. club”

## April 2007

Greetings Fellow Modelers,

First off, sorry about last month, we are now back in bidness. We want to wish everyone a Happy Easter and there will be plenty of time to get some modeling done.

If the SCAHMS show didn't inspire you, then go out and get a subscription to Historical Miniature Magazine. For those of you who did not make it, this was one of the best shows in awhile. You missed out on lots of great pieces and camaraderie amongst our peers. The vendor's tables weren't bad either. We will be giving you a complete run down at the upcoming meeting. Also on the agenda is the new venue situation and for those of you who have been approached to submit website reviews, it's crunch time.

This month's featured demo will be given by **John Eubanks**. He will be showing us his vinyl kit construction techniques. From what I understand, John will show us the hidden secrets to vinyl bonding and then some.

The usual shits and giggles, same location and time. Different donuts and different coffee. Don't forget to bring the extra dollas for our infamous kit rich raffle table.

Just a reminder to bring all your completed projects and also any works in progress to this meeting. Also those who participated at SCAHMS, regardless of metals, please bring your pieces to the next meeting so that we may enjoy them again.

**SCAHMS 2007**  
**Best of Show, John Rosengrant**

I look forward to seeing you all there!  
Marcelo Fuentes  
Minister of Propaganda
