

# LOS ANGELES MINIATURISTS

"the L.A. club"

## May 2007

Greetings Fellow Modelers,

Please come and join us on Saturday, May 5, 2007 at the Moose Lodge. This will be our final meeting there so you definitely don't want to miss it as we bid it fare thee well.

We have acquired a new location. The Burbank VFW, affectionately known as "The Ship". More details to be announced at the upcoming meeting. A special Thank-You to Peter Ferk & Paul Papp for all their attempts & efforts in obtaining a new meeting location.

This month's demo will be brought to you by none other than "The Schwartz". Ken will be showing us various techniques on applying Zimmerit to all your favorite German armor. Don't miss this demo as Ken is a sheltered individual and usually keeps to himself. We had to move mountains and oceans to get him to do this demo for us.

Other than that we will discuss our usual protocol. The website, membership, new meeting location and other good stuff. Coffee & donuts as expected.

Since its Cinco de Mayo, somebody bring the papaya margaritas and fish tacos.

In honor of Pancho Villa, adios muchachos!

I look forward to seeing you all there!

Marcelo Fuentes  
Minister of Propaganda
